Farmgate,Tejgaon Police Station Quarter, Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering undergraduate at American International University–Bangladesh (AIUB), expected to graduate in December 2026, seeking entry-level and internship opportunities in management information systems, business and data analysis, and IT support. Combines a technical foundation in programming, SQL databases, and data analysis with hands-on project experience in building information systems, including a team-developed emergency service platform. Skilled in data preprocessing, exploratory data analysis, and visualization with Power BI and Tableau, and in applying machine learning to business problems such as sales forecasting and predictive maintenance. A collaborative problem-solver motivated to connect business needs with technology to support informed organizational decision-making.

EDUCATION

Bachelor of Science – Computer Science and Engineering (BSc CSE), Major in Management Information System
American International University–Bangladesh (AIUB), Kuril, Dhaka | Expected Graduation: December 2026

Higher Secondary Certificate (HSC)
Shahid Syed Nazrul Islam College, Town Hall, Mymensingh | 2019 – 2021 | GPA: 5.00

Secondary School Certificate (SSC)
Government Laboratory High School, Batirkal, Mymensingh | 2017 – 2019 | GPA: 5.00

SKILLS

Data Analysis & Visualization: Data Preprocessing, Exploratory Data Analysis (EDA), Power BI, Tableau
Databases: SQL, MySQL, Database Management
Machine Learning & AI: Regression, Classification, Clustering, Predictive Modeling, NLP, Deep Learning
Tools & Platforms: TensorFlow, PyTorch, Keras, Scikit-learn, Google Cloud, AWS
Programming Languages: Python, R, C#, Java, C++
Systems & Development: Algorithm Design, Data Structures, System Architecture, Back-End Development, Version Control, Debugging
Networking: Cisco Networking (Certified)

SOFT SKILLS

Analytical Thinking, Problem-Solving, Critical Thinking, Strategic Thinking, Teamwork & Collaboration, Communication, Coordination, Time Management, Adaptability, Attention to Detail

PROJECTS

Sales Forecasting with AI — Python, AI APIs
- Developed a machine learning model using time-series forecasting to predict sales trends, supporting business decision-making and inventory management.

Real-Time Predictive Maintenance System — Python, ML, AI APIs
- Built a regression-based predictive maintenance model to forecast equipment failures and help reduce downtime in industrial operations.

QBillards – E-Commerce Website — Java
- Built an e-commerce website for billiards accessories featuring user authentication and payment integration.

CIVIO – Emergency Service Platform — C#
- Developed an emergency service platform offering efficient, alternative solutions for handling emergency situations.

Traffic Control System with Enhanced Features DLC Course Project

- Designed and implemented a traffic control system with real-time traffic monitoring, adaptive signal timing, and emergency vehicle prioritization.
- Integrated a buzzer system to alert traffic during emergencies and signal changes.
- Developed an emergency response module that prioritizes ambulances, fire trucks, and police vehicles to enable faster response times.

CERTIFICATIONS & ACHIEVEMENTS

- Cisco Networking Fundamentals — Cisco Networking Academy (routing, switching, and network security)
- Marathon Finisher — BOA Marathon 2024 | Dhaka International Marathon 2025 | July Spirit Mini Marathon 2025

WORK EXPERIENCE

Collaborative Software Developer – CIVIO Team Project September 2023 – January 2025

GitHub

- Collaborated with a team of developers to design and implement CIVIO, a C# desktop-based emergency service platform.
- Contributed to version control, code reviews, and debugging to ensure high-quality project delivery.

VOLUNTEERING

Flood Relief Volunteer August 26, 2024

Durgapur–Kolmakanda

- Distributed food, clean water, and essential supplies to families affected by recent floods.
- Collaborated with local organizations to coordinate relief efforts in high-need areas.

Student Traffic Volunteer August 6 – 11, 2024

Netrokona

- Managed traffic flow after the July revolution to ensure public safety and reduce congestion.

ACTIVITIES & MEMBERSHIPS

AIUB CS Fest and Intra-AIUB Programming Contest

- Participated in the Programming Contest, Math Olympiad, and ICT Olympiad at AIUB CS Fest, and in the university-level Intra-AIUB Programming Contest, applying problem-solving and algorithmic thinking.

Competitive Chess Player – AIUB 2021 – Present

- Played in multiple tournaments and competitive events, building strategic thinking, focus, precision, and sportsmanship.

Member – Engineering Students' Association of Bangladesh (ESAB), AIUB Unit

LANGUAGES

Bangla : Native Proficiency
English : Professional Working Proficiency

INTERESTS

Data Analytics & Business Intelligence, AI & Machine Learning, Software Development, Chess & Strategic Thinking
